

Small operating system scheduler (SOS)

By: Nada Abdelazim

HIGH LEVEL DESIGN

Layered architecture

Layers description:

(1)- Application layer:

Contains functions calls to implement the main project.

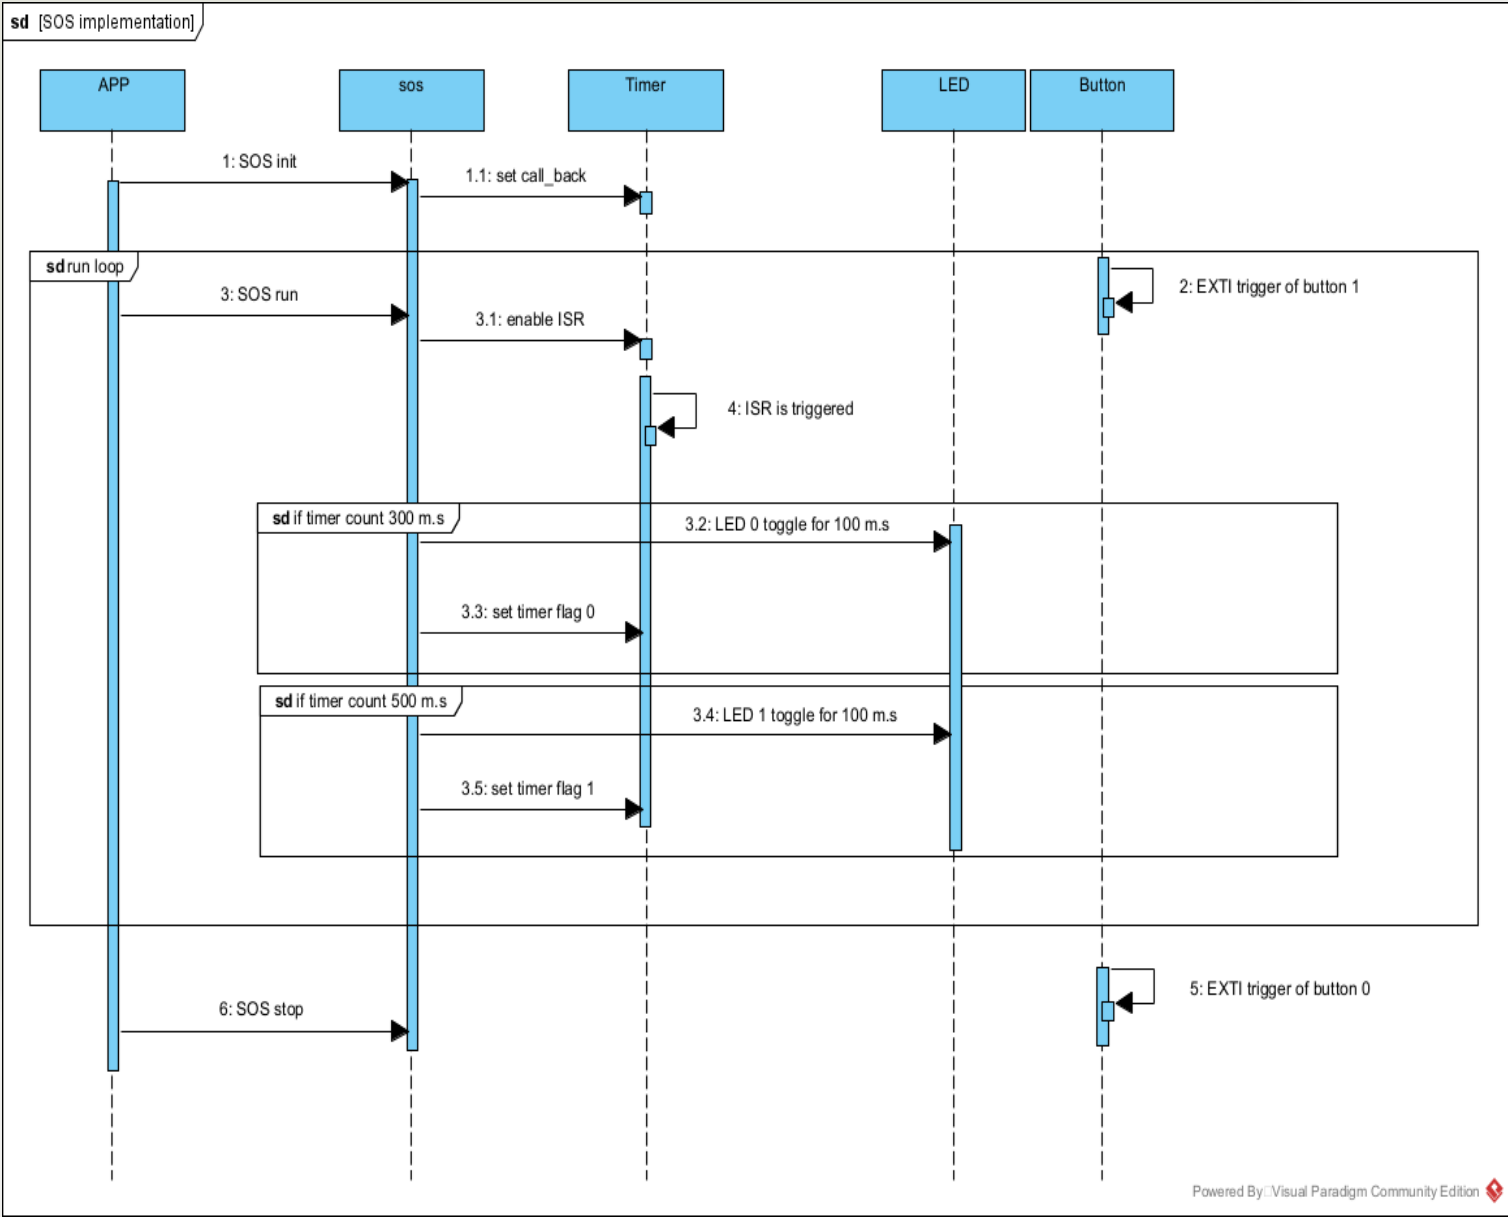

(2)- HAL:

Contains Drivers of the external electronic devices which will be connected to the microcontroller and the system overall.

(3)-MCAL: “Microcontroller Abstraction Layer”

Contains interfaces of the microcontroller’s peripherals.

Sequence diagram for application

Class diagram for SOS
